Thanks, Chris. I saved the pdfs to the file on the L:drive for the map corrections. Can you please enter your review info in the excel spreadsheet titled GIS maps? The GIS folks are using this spreadsheet to track the reviews.
Thanks.

Martin,

“Better late than never” is the theme I’m using in this response. For the sites I manage alone, corrections are needed for [Nonresponsive based on revised scope] and Keystone Sanitation Landfill. [-----] boundary needs to include only the 28-acre rail yard, not the multiple-square mile box currently on file. Keystone’s boundary shape looks correct, but it’s off center. See the PDF files for both. Changes are in red. No changes necessary for [Nonresponsive based on revised scope]

For [Nonresponsive based on revised scope] defer to whatever Sharon submitted to you (we share responsibilities for different OUs, with her OUs taking a little more of a priority).

See me with questions.

Thanks – Chris

Hi All,

Please see Martin’s email below and complete your review by 10/31/18. Let me know if you have any questions or want to discuss any boundary corrections.

Thanks,

OSSR BCs –

As we discussed yesterday, the maps displaying the boundaries for each NPL site are provided as .pdfs through the L:drive path below. The Excel spreadsheet created to track the review is also accessible through the same path. It would be great if each RPM could check the boundaries of their sites by the end of October, and use the spreadsheet to document their review and provide boundary clarification, if needed. To update or correct site boundaries, RPMs can send along updated maps, corrected maps, or GIS coordinates. I anticipate that there may be a 'few' sites with unique boundaries that might require additional discussion.

Thanks. Please contact me with any questions.
